

To Whom It May Concern

We hereby confirm that the Neutral Earthing Resistors supplied by Ms Resistances for RasGas Onshore Expansion Project Phase 2 (Train 6&7) consisting in :

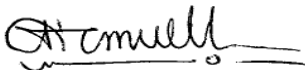

- NER 19.05 kV-400A-5sec;
- NER 3.98 kV-400A-5sec;
- NER 0.254 kV-10A-continuous;

have been successful commissioned in 2007 & have been satisfactorily working without any problem.

We have been purchasing Neutral Earthing Resistors from M.S Resistances since a long time and all the NERS have been installed in many places and have been working very well.
