To whom it may concern.

Wärtsilä in brief:

Wärtsilä enhances the business of its customers by providing them with complete lifecycle power solutions. When creating better and environmentally compatible technologies, Wärtsilä focuses on the marine and energy markets with products and solutions as well as services. Through innovative products and services, Wärtsilä sets out to be the most valued business partner of all its customers. This is achieved by the dedication of more than 15,000 professionals manning 130 Wärtsilä locations in close to 70 countries around the world.

Wärtsilä is a leading provider of power plants, operation and lifetime care service in decentralized power generation. Wärtsilä provides power for base load, intermediate, peaking, standby and combined heat and power applications as well as solutions for oil pumping. The product range comprises gas- and oil-fuelled power plants with outputs from 1 to 300 MW and biomass-fuelled plants with outputs from 1 to 17 MW.

Wärtsilä provides ship machinery, propulsion and manoeuvring solutions for builders, owners and operators of all types of marine vessels and offshore applications.

Wärtsilä contributes to optimizing the customers business by providing solutions over the lifecycle of the installation from design to construction and operation.

We have bin have bin using neutral grounding resistors and services from M.S Resistances to our world wide projects. We are very pleased with the quality of the products and the professional approach towards our projects and we are looking forward to use their products and services again in the future.

Best Regards

Roger Ehnström
General Manager
Supply Market Management, Power Plants
